Paired with beautiful design, exceptional craftsmanship is a key component to creating high-quality showpieces. Triangle Kitchen constructs meticulous designs with the finest materials from all over the world. Triangle Kitchen can bring any vision to life. See your local dealer for more information.

Ventilators are designed to specifically fit wood range hoods or custom hoods of your design.

TECHNICAL FEATURES:

- Dimmer LED lighting
- Quiet with variable speed fan control
- Removable, dishwasher-safe filters
- Durable stainless steel fabrication
- Sizes to fit 30" through 60" decorative range hoods
- Three year warranty
- Made in Germany

Baffle Liner Ventilator

Mesh Liner Ventilator

MATERIALS (Wood Species)

MAPLE

Maple is an ideal hardwood for living areas as it is extremely resilient with a streamlined appearance modulated by yellow, pink and light tan streaks that deepen when stained.

OAK

Oak is a deep open-grained wood that ranges in color from white and yellow to a rich red-brown. Occasionally streaked with black, green or yellow mineral deposits, the grain of red oak may form a characteristic sweeping arch pattern.

CHERRY

Unstained cherry wood has pink and pale brown hues that are sometimes streaked with shades of white, green and gray.

PINE

Pine is named after its distinctive knots of varying sizes, which combined with mineral streaks and distinctive variations in color, create a warm, fresh countrified finish that mellows and deepens over time.

WALNUT

Walnut is known for durability and that classic, rich, "expensive" appearance. Walnut is among the most popular and respected woods. That's because it looks and feels amazing.

WHITE OAK RIFT CUT

White Oak tend to range from light brown to medium brown. Grain is straight with a coarse uneven texture. This wood is widely used in furniture building due as it is strong, works well with glues and finishes well.

40+ FINISHES TO CHOOSE FROM

At Triangle Kitchen we are known for our superior quality of finish. We offer a designer palette of paints for a smooth consistent look or stains that enhance the natural character and grain of wood. Our superior paints, stains and other finishes are applied to Maple, Oak, Cherry, Pine, Walnut and White Oak Rift Cut. From light to dark or subtle to dramatic, the options are endless.

Go ahead, be creative...
